### REASONS FOR ALLOWANCE

The claimed invention of a voltage regulator as set forth by claims 1-12 is found to be allowable over the prior art since a voltage regulator comprising both Miller and Ahuja compensation circuits providing a sample or portion of the regulated output voltage of the voltage regulator to the input of a drive amplifier providing a gate drive voltage to an output transistor of the voltage regulator was not found to be singularly or collectively taught by the prior art.

The claimed invention of a voltage regulator as set forth by claims 13-16 is found to be allowable over the prior art since a voltage regulator comprising an inner feedback loop including first and second feedbacks paths around a drive amplifier wherein a zero produced by the first feedback path at least partially cancels a pole produced by the second feedback path was not found to be singularly or collectively taught by the prior art.

The claimed invention of a voltage regulating method as set forth by claims 17-21 is found to be allowable over the prior art since a voltage regulating method comprising both Miller and Ahuja compensation steps providing a sample or portion of the regulated output voltage of the voltage regulator to the input of a drive amplifier was not found to be singularly or collectively taught by the prior art.

The claimed invention of a voltage regulator as set forth by claims 22-32 is found to be allowable over the prior art since a voltage regulator comprising first and second compensation means providing a sample or portion of the regulated output voltage of the voltage regulator to the input of a drive amplifier was not found to be singularly or collectively taught by the prior art.

The claimed invention of a voltage regulating method as set forth by claims 33-36 is found to be allowable over the prior art since a voltage regulator comprising both

Miller and Ahuja compensation steps providing a sample or portion of the regulated output voltage of the voltage regulator to the input of a drive amplifier was not found to be singularly or collectively taught by the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably accompany the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
